

# Longstanton Route 10Km

## Start/Finish:

- 1 The starting point is the Longstanton Park & Ride terminal building (CB24 3DS) where toilets and parking are available.

Follow the 'access track' that runs alongside the busway in the direction of Oakington.

- 2 Continue along the busway until you reach the road crossing at Oakington & Westwick. At these traffic light crossroads, turn right and follow Station Road into the village of Oakington. Turn right into Mill Road and follow the road round to the left into High Street. Pass St Andrews Church (on your left) and continue down to the end of High Street and then turn right on to Water Lane.

- 3 At the traffic lights in the centre of the village turn right onto Longstanton Road. Follow the road as it bends to the left passing the White Horse Public House. The road then continues around the edge of the disused Oakington Airfield until it eventually enters the village of Longstanton.

- 4 Follow the road passing St Michael's Church on your right. St. Michael's is a 13th century thatched church, one of only two in Cambridgeshire.

- 5 At the crossroads make a slight dogleg to your left before turning right into the High Street. Continue along the High Street, passing the Village Institute on your right and on through the centre of Longstanton village passing by the village green, shops and the old village pump.

- 6 At the roundabout bear right and follow Station Road passing the entrance to Northstowe and back to your starting point at the Park & Ride terminal.

## Terrain:

Beware of guided busses, cyclists and horses on the busway

**Postcode: CB24 3DS**

**Last Updated:** March 2017

## Amenities:

- Parking (CB24 3DS)
- Toilets (CB24 3DS)

## Surface/Terrain:

- Road
- Tarmac path/road

**Profile:** Flat
