None of the detailed trees or plants are diseased. Planning permission is being requested for complete removal of all trees and shrubbery as the garden is in a conservation area. No trees have a TPO against them. We are requesting complete removal because all trees and shrubs have been planted to close together and so they are poor specimens.</p> <p>The positions of the trees are planted impractically for a domestic garden and there was no up keep from the previous owner. We would like to landscape the garden and replant some young trees that are native to Britain.</p> <p>Pleas note, the trees with a symbol (marked in read on the sketch map) on the plan have died. These trees lean against our properties fence and although they have not yet caused damage, they have the potential to do so if not removed.</p>	<a href="http://plan.scambs.gov.uk/swift/lq/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/3191/18/TC">http://plan.scambs.gov.uk/swift/lq/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/3191/18/TC</a>

S/3194/18/TC	11, Meadow Lane, Linton, Cambridge, Cambridgeshire, CB21 4HX	1) Ornamental Cherry. This tree has been affected by a cherry canker and over half of the tree is dead. There are numerous dead branches and small bits drop off regularly. I believe the tree cannot be saved and there is a risk from dropping limbs, particularly as the tree is close to the house. I believe it should be removed for safety reasons, as well as the fact that it is dying. 2). Leylandii. This large ugly conifer is increasingly encroaching on the garden and adds nothing whatsoever in terms of beauty. It has killed a lot of lawn and border planting which it overhangs and smothers. I wish to replace it with a mulberry tree and herbaceous planting. This will add greatly in terms of attractiveness and diversity of species.	<a href="http://plan.scambs.gov.uk/swift/lq/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/3194/18/TC">http://plan.scambs.gov.uk/swift/lq/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/3194/18/TC</a>
