S/3415/18/TC	40, Pierce Lane, Fulbourn, Cambridge, CB21 5DL	<p>We submit this application to request complete removal of 1 x mature sycamore tree in a conservation area. The tree is shown on the attached diagram with an * symbol , and is at the beginning of the access to the property from Pierce Lane. Unfortunately, the sycamore causes a safety hazard for cars coming out of this access, as it impeaches the view to on coming vehicles on the road. The sycamore also restricts the size of vehicle able to come down the access. As we are looking to renovate the property (40 Pierce Lane) in the near future, the trees would prevent trucks and /or lorry's getting to the house, if it was to remain in its current location. It is worth noting that the sycamore is not diseased and was previously topped in 2016.</p> <p>Please note our previously submitted application ref: S/3191/18/TC which is currently under review. Reduce large (almost horizontal) limb overhanging public footpath by at least 30%. This tree is adjacent to and large parts of the crown significantly overhangs public footpath. Works to be carried out because of public safety." When our staff were climbing the tree to insert a 'Cobra' bracing system they discovered further evidence of heartwood decay below the crown (including horizontal stem mentioned above).
