S/3098/18/TP	14, The Baulks, Sawston, Cambridge, Cambridgeshire, CB22 3NP	TPO 0008 (1967) (T23 & T24): Walnut (T2) - reduce in height by 4m as the tree is becoming too tall for its location. Walnut (T3) - fell. The tree has development as a twin stem co-dominant form with a union at only 0.5m from the ground. The formation of the union looks to be weaker than optimal which is probably due to natural branch bracing from an early age. The felling of this tree would have minimal effect on amenity value due to the many mature surrounding trees. Conservation Area: Ailanthus (T1) - re-reduce the crown by remove 2 to 3 metres from branch length (work to be carried out mid-late Summer 2019). This is continued management of the tree to prevent any nuisance to the neighbours at the rear. S/3153/18/TP	Westgate Cottage, 7, Orwell Road, Barrington, Cambridge, Cambridgeshire, CB22 7SE	<p>Our neighbours in 10 Old Mill Close, Barrington have asked if it's possible to have a crown lift on a single Ash Tree that borders our properties. Neighbours are concerned that tree is looking unsafe/unbalanced, and 2 branches cover 1/3 of their garden, restricting most of the light. HERTS &amp; CAMBS GROUNDS MAINTENANCE have looked at the tree and have suggested that by performing a crown lift of two of the lower limbs, the tree would be much better balanced, and would remove any immediate risk. They said this would cause no issues to the health of the tree.</p> <p>Neighbours in adjoining properties are aware and have no concerns. S/3194/18/TC	11, Meadow Lane, Linton, Cambridge, Cambridgeshire, CB21 4HX	1) Ornamental Cherry. This tree has been affected by a cherry canker and over half of the tree is dead. There are numerous dead branches and small bits drop off regularly. I believe the tree cannot be saved and there is a risk from dropping limbs, particularly as the tree is close to the house. I believe it should be removed for safety reasons, as well as the fact that it is dying. 2) Leylandii. This large ugly conifer is increasingly encroaching on the garden and adds nothing whatsoever in terms of beauty. It has killed a lot of lawn and border planting which it overhangs and smothers. I wish to replace it with a mulberry tree and herbaceous planting. This will add greatly in terms of attractiveness and diversity of species.
