This is being written as an amendment to a recent application for work to be completed on our trees that was approved (i'm not sure how to amend the original application) . After further consideration we would like to pollard the field maple next to our oil tank with a 50% reduction. We wish to pollard the tree as the branches are overhanging the oil tank a lot more than we originally thought. Many of the branches are dead and malformed, a tree surgeon has confirmed that they have a fungus infection that is common on this type of tree and it will kill the whole tree. S/3730/18/TC	Quince Cottage, High Street, Hildersham, Cambridge, Cambridgeshire, CB21 6BU	<p>Tree works Conservation Area.</p> <p>In general the works are of a cyclical nature to provide light to Quince Cottage, Willow House and Victoria Cottage. The trees are numbered 1, 2, 3 and 4 on the attached sketch. Tree 1 is a fir tree in the grounds of Willow House. This was reduced in height some years ago and has now grown back far higher and wider. Both Mr and Mrs Sinclair and ourselves wish the height to be reduced to that of the Sinclair's studio roof. It will then sit comfortable with the informal mix hedge which forms our boundary. The second reason we wish to reduce this tree is that in the past seven years and on separate occasions two of our large windows have shattered on very sunny days. The glazier says it is due to the density and proximity of this tree. Thus it is also for safety reasons we wish to reduce the height of this tree. Tree 2 is a walnut. It lost two branches in a recent storm. We plan to reduce its height and girth by about one third and make sure that it is evenly balanced and safely away from the garage. Tree3. These are three wild plums.
