The previous owner of 12 Church Street planted fruit trees and mixed shrubs along this border. Since the trees are as close as approx. 1 metre to the house at No 20 the owners are worried about damage that may be caused to their property as the roots of the trees spread. The trees we would like to fell/trim are creating an excessively dark garden in which we cannot get anything to grow successfully. We plan to replant many more shrubs/flowers, and keep the newer trees in the sunnier part of the garden and along one fence. Work to be done: Pine Tree (T1) (30cm diameter at 1.3m above ground)- fell because of excessive shading preventing growth of other plants in the garden, very large size (approx 40ft), undue mess due to pine needles. Tree surgeon stated that they suspect this is Christmas tree that was planted. White beam (T2) (28cm diameter at 1m above ground) - fell because of unsafe proximity (2.5m) to house (for insurance and concerns over damage to foundation due to roots), it also produces excessive shading of house meaning no light gets into bedrooms, and fungal growth on the house exterior. S/3903/18/TC	10, High Street, Little Abington, Cambridge, CB21 6BG	<p>we have a small noisy tree, approx. 6m tall, close to the boundary with our neighbours at 4 High Street. The trunks are within 2m of the boundary fence, and part of the canopy overhangs their garden. The tree has a large and growing split/wound in the main trunk, which appears to have been caused by disease. It also has a dense and chaotic top-heavy canopy, which blocks out a considerable amount of light, both for us and the occupants of 4 High Street. The tree is only fully visible to us and three of our neighbours. It cannot be viewed by the general public (aside from a tiny section that is visible through a narrow gap between us and our closest neighbour, 12 High Street). Consequently we would like permission to fell the tree and replace it with a something more appropriate to the position, such as several small acers or a dwarf birch.</p> <p>We live in a designated conservation area, which is why we are making this application.
