S/3443/18/LB	3, Church Farm Lane, Steeple Morden, Royston, Cambridgeshire, SG8 0NL	We have erected a boundary fence to separate the garden of the cottage (Listed Grade 11) - in the process of being sold - and the rear of the garden I wish to keep. I was not aware I needed permission to do this but have since been advised that it is necessary. The fence is a standard post and panel construction; the panels are six feet square with a gravel board below. The length of the fence is approximately 14.5 metres. I have no plans for development for housing of the rear portion of the garden but wish to retain it as it was my childhood garden and has old apple and chestnut trees as well as a pond with newts and toads, dating from the 1960's. S/3708/18/TC	56, Fowlmere Road, Heydon, Royston, Cambridgeshire, SG8 8PU	Classed as a New Application as amendments are not possible. This is being written as an amendment to a recent application for work to be completed on our trees that was approved (i'm not sure how to amend the original application) . After further consideration we would like to pollard the field maple next to our oil tank with a 50% reduction. We wish to pollard the tree as the branches are overhanging the oil tank a lot more than we originally thought. The tree is also in very close proximity to a flint wall which borders our property and we wish to preserve the wall. S/3730/18/TC	Quince Cottage, High Street, Hildersham, Cambridge, Cambridgeshire, CB21 6BU	Tree works Conservation Area. In general the works are of a cyclical nature to provide light to Quince Cottage, Willow House and Victoria Cottage. The trees are numbered 1, 2, 3 and 4 on the attached sketch. Tree 1 is a fir tree in the grounds of Willow House. This was reduced in height some years ago and has now grown back far higher and wider. Both Mr and Mrs Sinclair and ourselves wish the height to be reduced to that of the Sinclair's studio roof. It will then sit comfortable with the informal mix hedge which forms our boundary. The second reason we wish to reduce this tree is that in the past seven years and on separate occasions two of our large windows have shattered on very sunny days. The glazier says it is due to the density and proximity of this tree. Thus it is also for safety reasons we wish to reduce the height of this tree.
