The approximate position of the tree is shown with an X on the enclosed plan. I am intending to surrender my tenancy to the church shortly as the church intends to use the land as an extension to the churchyard (for which it will be applying for permission in due course) and I am required to remove this mature tree first. My property and this piece of land are now within the extended Conservation Area of Foxton, and hence my application. I planted this tree as a sapling about 25 years ago and it is now full grown and very large.	http://plan.scambs.gov.uk/swift/lq/apas/run/WPHAPPDETAIL_DisplayUri?theApnID=S/4340/18/TC

Blocking sightline to impressive cedar.</p> <p>Cypress (C) - fell. Low amenity value and struggling in proximity to other trees. Too close to magnolia; hampering its growth and blocking significant amount of light to it.</p> <p>Blocking sightline to cedar. The main objective for the works to trees A to C is to reduce overcrowding of cypresses, allowing greater access of light to healthy trees and to a magnolia that is being crowded out; and to improve visibility of impressive cedar tree, which is currently almost completely obscured. The trees being removed are the least healthy of the trees in this part of the garden, and are struggling to compete in close proximity to larger more successful trees.</p> <p>Laburnum (D) - fell. Rotten at base, trunk splitting, and leaning at severe angle. Poses risk to people, and to buildings and vehicles on and around driveway. All above proposals are being made following consultation with and on the recommendation of a tree surgeon.</p> <p>We are planting a new cherry tree (prunus amanogawa), near to eastern boundary (in vicinity of felled A, B and C).</p>	<p>http://plan.scambs.gov.uk/swift/ig/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/4404/18/TC</p>
