	S/4668/18/TC	Quinneys, High Street, Castle Camps, Cambridge, Cambridgeshire, CB21 4SN	Yew - application for permission to "Reduce to fence height and shape sides". The tree is located away from roads, halfway up our garden at the rear of our property, adjacent to the neighbouring fence with Westferry (property name of neighbour). The tree is on our property and the fence is responsibility also. Reason for reduction in height is to prevent damage to fencing and persons from longer branches swinging wildly in strong winds and hanging at low level under the weight of snow, to allow sunlight to reach surrounding vegetation, and to prevent poisonous debris from affecting housing of chickens. The tree is in good health and (from our quote and discussions with Mercer Tree Services Ltd. we are not aware of any reason that this work would endanger the health of the tree or reduce its amenity value to the local environment. Elsworth CP						
	S/0003/19/TC	Land belonging to Davison Farmers opp 8 Broad End and adjacent to 15, Broad End, Elsworth, Cambridge, Cambridgeshire, CB23 4JD	one Large dead and dangerous ASH Tree in Conservation Area. The tree in question is on the left side of Meadow Drift as you enter it from Broad End. It is just on the edge of the land that is part of the allotments on the opposite side to NO 8 Fardell's Lane and is very visible from the road. It is a very large Ash, one of the biggest in the parish, with a very decayed bole, part of which has now collapsed outwards. The tree is leaning to the west and is lodged on (partly held up by) a small Elm, but the wide canopy of the Ash and the angle of lean means that it is likely to twist and take the living Elm (and several dead/dying ones nearby) with it if it fell. The main point is that the canopy of the Ash partially overhangs the track up to the allotments and, depending on the amount of twist if it fell, it would almost certainly damage 15 Broad End (the bungalow between the school and the allotment track).
