Reason for work is this tree has bad form, has had poor pruning works in past and is also causing excessive shading when in leaf. T4- 1x acer pseudoplatanus, is to be remove to ground level. Reasons for work being this tree is an over extended root sucker that is being shaded by T3 and T5 and has no/low amenity value and will never grow into a mature tree with form. this will allow more light onto property and will improve give more space to neighbouring trees to grow into maturity. replant not necessary as this tree is a root sucker from T3 and technically not an independent tree. However a prunus x subhirtella rosacea will be planted in its place at site P1 T5-1x acer pseudoplatanus, crown reduce by 2 meters to suitable growth points. reason for work is this tree has bad form, has had poor pruning works in past and is also causing excessive shading when in leaf. T8- 1x acer pseudoplatanus, tree is to be removed to ground level, reason for work being this tree is a root sucker which is being out shaded by T7 and does not have space to mature and will also compete and interfere with T7's crown which is a mature established tree. replant not necessary as this tree is a root sucker from T7 and technically not an independent tree. However a prunus x subhirtella rosacea will be planted at P2 Please refer to attached sketch plan for all of the above.	07/03/2019	http://plan.scambs.gov.uk/swiftlg/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/0902/19/TP

I recommend a 30% (5m) overall reduction and removal of deadwood with a view to alleviating weight and sail and excessive shading. T2 to T7- A mixture of adolescent Ash, Horse Chestnut and Sycamore. To be dead-wooded and reduced by 25% (3m). T8 & T9- These trees exhibit very clear decline as a result of the Ganoderma bracket fungus. They now only stand 4m tall as both suffered catastrophic trunk failure. To be removed to ground level. T10- Young Cherry of very poor form as a result of previous pruning and phototropism..	04/03/2019	http://plan.scambs.gov.uk/swiftlg/apas/run/WPHAPPDETAIL.DisplayUrl?theApnID=S/0842/19/TC
