For the asset to be of community value, the Council needs to be satisfied that either i) an actual current non-ancillary use of the asset furthers the social wellbeing or social interest of the local community and it is realistic to think that there can continue to be non-ancillary use of the asset which will further (whether or not in the same way) the social wellbeing or social interests of the local community, or The nomination includes an explanation of how the nominating body believes the current and main use of the asset furthers the social wellbeing, or cultural, recreational or sporting interests of the local community. However, this explanation contains insufficient detail regarding the use of the asset by the community for the Council to determine whether these uses are currently occurring, occurred in the recent past, or neither of these; nor whether they occurred with sufficient frequency and/or intensity to be considered as 'non-ancillary' use.	-	-	-	-	-	-	-	-	-	-	-	Refused	None
