

██████████ 26-nov-19 14:48:41

A Temp Stop notice was placed on 32A West Drive as number of the Conditions had not been discharged prior to commencement. All relating emails, Photos etc are in the Media File

██████████ 02-aug-19 09:36:25

DOC Received and according to ██████████ the case office, the documents look sufficient for the conditions to be discharged. Can has been closed awaiting further information.

██████████ 31-jul-19 15:01:54

Stop notice for 28 days has been served and will expire 3/8

██████████ 31-jul-19 14:51:00

DOC application no S/2640/19/DC valid 31st July 2019 Waiting further instruction

██████████ 01-jul-19 13:51:17

Work has continued at the site despite the conversations I had with the owner prior to 13/6/2019. I have today written to advise that a VAR needs to be submitted to clear conditions 7 and 11. Applications have been received to clear conditions 8 and 10 and these are currently at the consultation in progress stage. I have spoken to ██████████ who may well get a call from ██████████ who is in charge of the build

██████████ 13-jun-19 09:25:32

██████████ called into the the office today he is going to get an agent to submit V of C to correct the situation. There will be work on the site on 15/16 June 2019 but this will not be him. EON are replacing some of their power cables.

██████████ 10-jun-19 14:55:32

Following a complaint from ██████████. Work has commenced without conditions 8 and 10 being discharged. I spoke to ██████████ at surgery, i'd already taken some photographs showing construction has taken place. I have asked the owner to cease work under a voluntary stop or a stop notice will be applied until a VOC has been approved
