

Request 6440

(SCDC) Vacant parking spaces on council estates

- 1) The total number of parking places on your council housing estates.
- 2) What estimate you have of surplus parking spaces on your council housing estates - that is the number of places that are vacant even at periods of peak usage, or any other criteria you have used for such an assessment.

Response

Parking spaces are always in demand, and we are unable to put a number on vacant spaces

Parking is communal and not allocated to our properties, we do have a number of schemes where we are looking to increase the number of parking spaces due to demand
