

## Request 7895 – Health and safety, policy

(SCDC) HSE 4

I require the information that South Cambridgeshire District Council holds in relation to the General Hazards of Carbon Dioxide “Workplace Exposure Limits and Substances Hazardous to Health. ( COSHH )

This is due to the reply given via the county Council;

[We can confirm that we do not hold the requested information as Health & Safety (e.g. COSHH) is a responsibility of the City/District Councils in Cambridgeshire rather than the County Council.]

### Response

The Commercial Team don't directly hold the requested information on COSHH but do refer to the most up to date information freely available and held on the [HSE Website](#).
