Preamble to inspectors' report

Information and guidance about the Zoo Licensing Act 1981 (ZLA) is available at <https://www.gov.uk/government/policies/protecting-biodiversity-and-ecosystems-at-home-and-abroad/supporting-pages/species-protection> and <http://wales.gov.uk/topics/environmentcountryside/ahw/zoos/?lang=en>

Preamble to inspectors' report*, including any comments about the current dispensation status, if applicable.

A comprehensive pre-inspection audit was provided by Linton Zoo which considerably assisted the inspectors in completing the zoo inspection. However, it would have been helpful if this pre-inspection audit had been received sooner, to allow careful reading before the inspection.

As with many zoos, the on-going achievements of the collection were found to be significantly greater than as described in their pre-inspection audit.

Linton Zoo itself has not significantly changed since the last periodical. There is an ongoing programme of improvements (notably the additional lion enclosure and plans for an extended snow leopard enclosure and vulture aviary), and maintenance of a number of enclosures.

The inspectors wish to thank the management and staff for their valued contribution in making this inspection very efficient and enjoyable.

There is a very good team at Linton Zoo, doing some excellent work in terms of welfare, education and conservation.

Therefore the inspectors wish to congratulate those involved on the excellent progress that has been achieved over the last three years.

*this might include general background about the zoo (type of collection, size etc) and any relevant information or comments from the pre-inspection audit
