

## **Request 7981 – Risk Assessment Respiratory Risks to the Public during Covid-19 Research Purposes**

Please could you provide a list of Community Facilities Buildings under South Cambs District Council jurisdiction?

Please confirm if those buildings have been assessed for Asbestos existence and how often are they surveyed for Deterioration? Do you have warning signs in those areas people may come into contact? If not what processes do you use to raise awareness to the hazard?

### **Response**

Block Road Village

Please confirm if those buildings have been assessed for Asbestos existence and how often are they surveyed for Deterioration? The buildings have been assessed and they are re-assessed when work is carried out on them.

Do you have warning signs in those areas people may come into contact? Floor plans indicate where asbestos is present in the kitchen of each communal area were applicable

If not what processes do you use to raise awareness to the hazard? N/A
