

Request 8363 – building constructions

1. The number of building constructions in the past 5 years that require planning permission where the authority is aware that construction begun before all pre commencement planning criteria had been met.
2. The number of enforcement notices served by the local authority planning team for South Cambridgeshire within the past 5 years to stop construction in a situation where the party carrying out construction had not fully satisfied all pre commencement planning criteria.

Response

1. The number of building constructions in the past 5 years that require planning permission where the authority is aware that construction begun before all pre commencement planning criteria had been met.

We do not collate data that would show 'the authority is aware that construction begun before all pre commencement planning criteria had been met.' However, you may find it useful to view the [Enforcement Register](#) which provides the detail we are obliged to publish concerning planning enforcement notices. Should you wish to then view the detail of any of the listed planning applications you can find them on the [planning portal](#).

2. The number of enforcement notices served by the local authority planning team for South Cambridgeshire within the past 5 years to stop construction in a situation where the party carrying out construction had not fully satisfied all pre commencement planning criteria.

Year No. TSN (Temporary stop notices)

2020 - 0

2019 - 2

2018 - 5

2017 - 7

2016 - 2

Total 16

For the detail of TSN's please also see the publicly available Enforcement Register and planning portal, as detailed above.
