

## **Request 8739 Records of private groundwater abstractions that do not require license from Environment Agency**

I am looking for some information on private groundwater abstractions that do not require a license from the Environment Agency. I would be grateful if you could supply me with information concerning any private groundwater abstractions which are present within 1km radius of the location listed below: - SHELL GIBBET, St Neots Rd, Papworth Everard, Cambridge CB3 8PD If possible, for each abstraction please could you supply:

- Details of name, address and/or grid reference of each groundwater abstraction
- What it is used for
- Date of commencement of abstraction
- The main aquifer unit the groundwater is abstracted from.

My request refers to private groundwater supplies that do not need an abstraction license from the Environment Agency e.g. a supply of drinking water from a well.

### **Response**

We do not hold any records of private groundwater extraction in this area.
