

Request 9504 – Visit South Cambs.co.uk

<https://visitsouthcambs.co.uk> Has this website been developed in-house by @SouthCambs? If not, who designed the website and at what expense? Who will be responsible for maintaining the website, and how will it be funded?

Response

The Visit South Cambs Website is being designed by an external company. The website was procured through the Council procurement process. Further Information on this can be found at [Doing business with the council - South Cambs District Council \(scambs.gov.uk\)](#)

The Company that was awarded the contact was Isle Interactive, at the cost of £25,068.00 +VAT. The cost will include build, hosting and back office site management for 2 years. Training costs are also included.

The cost of the project is being funded through the [Welcome Back Fund - GOV.UK \(www.gov.uk\)](#)
