

Request 8639 Personnel

- How many of your employees working in housing (in any form – homelessness, housing officers, etc) have died from COVID/following a positive COVID test since the beginning of the pandemic?
- How many of repairs and maintenance operatives (who are employed by you/as contractors) have died from COVID/following a positive COVID test since the beginning of the pandemic?

Response

Thankfully, we have not had any staff die after a positive Covid test. Contractors who carry out repairs are not employed by us so we won't have information on them.
