

Request 8500 – Planning Application

Could I please ask for all information you hold regarding the planning application reference number S/4426/17/FL that is not currently on the planning portal. At some point there was a lot more information on the planning portal than there is currently. This includes, but is not limited to, correspondence, documents, drawings and full details of any complaints either before or after the permission was granted.

Response

All information is now available via the [planning portal](#).
