

Request 9669 – Second request for appeal documents and correspondence

This is a formal request under the appeal procedures for all correspondence that has been exchanged between the LPA and the Planning Inspectorate in regards to the Few's Lane planning appeals and all documents in the appeals.

This information is supposed to be available for inspection at the local authority's offices, but the council's office is currently closed.

Can you please confirm that all the correspondence for all three appeals appears on the council's planning register?
