**Proposed Main Modifications**

Caroline and Matthew

There appear to be two issues previously identified that do not appear in the most recent proposed main mods schedules provided by the Councils, namely:

Previous Schedule:

SC-MM325 (add bullet point above the existing bullet point to read: Glebe Land (NH/12-098a)

SC-MM340 (reinstate the modification; change the site reference to "Newton Road Play Area NH12-171")

Subject to the above two items being reinstated into the schedules dated 1/12/17 (as amended by the Errata sheets dated 12/12/17), the Inspectors are content that these schedules should be the subject of formal consultation. Please note that the Inspectors are asking you to carry out consultation on the basis that these modifications may be necessary to make the plans sound, but this does not imply that they have come to any firm conclusions on the soundness of the Plans, with or without these modifications. It would be wholly inappropriate to do so before the consultation process has been undertaken.

Please continue to provide me with details of the timing of consultation and when we can expect to receive the results. In addition to copies of representations registered the Inspectors will also require a statement on the consultation process and a summary of the main issues raised, cross-referenced to the relevant representation numbers.

Kind regards

Gloria

**Re: Proposed Main Modifications Schedules**

Dear Gloria,

Thank you for your email of 14 December.

Following your email, the Council highlighted to you by phone on 15 December that the two Local Green Space issues were identified in the Inspectors' email of 20 October 2017, and the Councils had responded on 29 October, explaining why the two sites were not listed. On 10 November the Inspectors email confirmed they agreed with this approach. Thank you for confirming subsequently in our phone conversation of 18 December that the Inspectors are content that the issues had already been addressed. Please can you provide written confirmation of that position for completeness.

With the above issues resolved, thank you for confirmation that the schedules of main modifications are ready for formal consultation. The Councils will now proceed with the consultation, commencing on 5 January for a period of six weeks.

For completeness, the Councils would like to add your email of 14 December, and this email and the requested response, to the Reference Document library (as new document RD/GEN/560) as formal confirmation by the Inspectors' of the schedule of main modifications for consultation. Please can you confirm the Inspectors' agreement.

Kind regards

Caroline

**Proposed Main Modifications Consultation**

Caroline and Matthew

I refer to your two emails of 19 December 2017.

I confirm that the Inspectors have accepted the S Cambs reasoning in respect of the two LGS mods matters they raised and are therefore content for the Councils to proceed with the mods consultation on that basis.

I also confirm the two reference documents to which you refer (RD/GEN/550 and RD/GEN/560) may be added to the reference library.

Kind regards

Gloria

Gloria Alexander
