A comprehensive records and information survey was undertaken in 2008/2009 to inventory and understand the types of information/records held by the authority. This has provided the platform for understanding, which Services within the Council will be affected by the policy.

Impact (risk assessments) will be carried out and monitored over the next 3 years, which is part of the Information Governance Project strategy.

B2. Have you compared the data you have with the equality profile of the local population? What does it show?

N/A

No external stakeholders have been consulted, as it is an internal policy.
