

# JOINT STATEMENT ON THE DEVELOPMENT STRATEGY FOR CAMBRIDGESHIRE BY THE CAMBRIDGESHIRE AUTHORITIES 2010

## 1 Introduction

- 1.1 This statement has been prepared by the Cambridgeshire authorities to set out our position regarding the development strategy for the County in light of the Government's recent announcement of the revocation of Regional Spatial Strategies and aspiration for a locally based planning system.
- 1.2 The Cambridgeshire authorities have a long history of joint working on planning issues and will continue to work together to share information and develop good practice. A significant evidence base has been built up that provides the authorities with important information to guide further work. An important outcome of this approach was the Cambridgeshire and Peterborough Structure Plan - a sustainable strategy for growth that was tested at Examination and adopted in 2003. This strategy was adopted largely unchanged in the Regional Spatial Strategy (2008) and the authorities' response to the RSS review in 2009. The Structure Plan strategy has also informed the development of the City and District Councils' Local Plan and Local Development Frameworks and is currently being implemented by the authorities through their development decisions.

## 2 Cambridgeshire strategy

- 2.1 The Cambridgeshire authorities remain committed to the strategy for planning in the County, including the provision of housing, as originally established by the Structure Plan and as now partially set out in saved Structure Plan policies and as reflected by the policies and site proposals in the Cambridge Local Plan and District Councils' Development Plan Documents and developing strategies for market towns.
- 2.2 The key objective of the strategy is to locate homes in and close to Cambridge, following a comprehensive review of the Cambridge Green Belt, and to other main centres of employment, while avoiding dispersed development which increases unsustainable travel and makes access to services and community facilities difficult. Further sustainable locations for growth focus mainly on Cambridgeshire's market towns.
- 2.3 This strategy makes provision for development:
  - within Cambridge or as sustainable extensions to the urban area, subject to environmental capacity and compatibility with Green Belt objectives.
  - at the new town of Northstowe, linked to the guided busway;
  - within, or as sustainable extensions to, the market towns of Wisbech, March, Ely, Huntingdon and St Neots, subject to the potential for regeneration and the provision of essential infrastructure and public transport improvements<sup>1</sup>; and

---

<sup>1</sup> Huntingdon and St Neots in this policy refers to the Spatial Planning Areas as defined in the adopted Huntingdonshire Core Strategy

- within, or as extensions to, other market towns, where development would increase the towns' sustainability and self-containment, improvements to infrastructure and services are planned or will be provided and high quality public transport provision can reduce the impacts of out-commuting.
- 2.4 This strategy has met with considerable success so far and a large number of sites have already been delivered throughout the County or are under construction, with more remaining to be developed. Despite the recession, construction has continued and Cambridgeshire is identified as one of the key areas of the country likely to lead the national economy into recovery.
- 2.5 Despite recent announcements about the relocation of Marshalls from Cambridge airport, the authorities consider that Cambridge East retains great potential for sustainable development and currently remains part of the strategy. The authorities also consider that there is sufficient availability of housing land over the short to medium term. Cambridge East will be considered alongside other sites as part of a fuller review of the strategy.

### **3 Looking forward**

- 3.1 The Cambridgeshire authorities remain committed to the strategy for planning in the County outlined above, as embedded in the Cambridge Local Plan and District Councils' Development Plan Documents. However, with factors such as fragile economic growth, the need to rebalance the economy towards the private sector, changing demographic pressures, the challenges of climate change, uncertainty over infrastructure provision and emerging proposals for the Greater Cambridge and Greater Peterborough Local Enterprise Partnership, there remains a need to keep the strategy under review.
- 3.2 The authorities will continue to work together on place-shaping issues and will begin gathering evidence to inform decisions on future development levels and locations, so that the strategy that emerges will be based on a thorough understanding of the issues the County faces, including cross-County boundary impacts. Moves to a more locally based planning system will provide the authorities with much greater freedom. We will ensure that under this new system the future strategy is driven by the needs and aspirations of local communities, is fully deliverable, ensures the County's continuing economic success and protects and enhances Cambridgeshire's unique environment.
