4 Day working week weekly reporting form

Introduction

Weekly

Following your recent receipt of the retrospective data form, the Department requests that SCDC completes the following weekly data collection. The form requests ongoing data on: staffing, costs, service delivery, performance against a range of SCDC's KPIs, and resident feedback.

As stated in the Best Value Notice, the Department requests that this form is completed and returned on a weekly basis starting one week from its receipt. To allow time to gather the relevant information, each weekly submission should correspond to the week two weeks prior to the date of submission.

Please note that no personal data should be provided in this form.

Data collection - weekly

Data recorded in this section should relate to the period 25th March 2024 - 31st March 2024

Additional commentary

Please provide any additional comments on the information provided in this section

Please use this box to provide an explanation for missing data or additional commentary

1A - This is a headcount of permanent and fixed term employees.

1A – The headcount for Housing includes 4 staff who opted out of the 4DW trial. The headcount for Shared Waste includes 2 staff who have opted out of the trial.

1A - Transformation also includes HR and Corporate Services; this is the case for all questions where the weekly data is to be provided by service area.

1A – Our current processes mean that for approximately the first 15 days of the month, HR data is input. For the next 15 days of the month, our Payroll team take additional actions based on our input. This means that HR flag people as leavers, but they do not technically "leave" according to the i-trent system until

Payroll actions are complete.

1B - This is a headcount of temporary, casual, and agency staff

1B - Note - one employee can undertake more than one role

1C – Permanent and fixed term staff costs are calculated monthly via the payroll process which includes calculations of National Insurance, Pension, allowances, overtime etc. This figure is calculated monthly and therefore data cannot be provided for individual weeks. The total costs for each month are provided as soon as the data is available.

1C - Agency staff costs are calculated monthly as part of our monthly accounting processes. The total costs for each month are provided as soon as the data is available.

1D – Contracted hours for staff – no hours have contractually changed during this trial. The expectation is that all staff work 80% of their contracted hours. Full time hours = 37, anticipated working hours = 29.6

1D - Working pattern Part Time - hours vary between 5 - 36 hours per week. Actual hours worked are expected to be 80% of those contracted hours, which remain unchanged.

1E - This has been calculated on working pattern in i trent which for most staff in original trial is 4 days per week, for Shared Waste staff, i trent has not yet been changed so this is still 5 days per week

1E - Days sickness per FTE are calculated using number of days sickness absence in the service area per week divided by number of full time equivalents in the department – note absence data for this week period may change after submission date if further updates to cases are made in i-Trent.

1G - Job title is provided as we do not categorise roles. For roles recruited prior to Sept 2023 we do not have exact dates advertised and have instead provided month and year. We have interpreted date staff appointed as the date the applicant was verbally offered the role and the start date as the day they commenced employment. Please note for driver and loader vacancies some of the adverts were rolling adverts where candidates may have been interviewed and appointed prior to the official closing date - these jobs may have reopened again very shortly afterwards. Where multiple roles were advertised we have identified these using 'M' in column A so multiple roles are shown advertised in one vacancy. This data spreadsheet includes both internal and external vacancies and appointments.

11 – Overtime payments are requested, processed and paid monthly as part of the payroll process so this data is provided monthly as soon as it is available. Note that a claim made in any month can cover any instances of worked overtime from the previous 3 month period. This number does not include out of hours payments, standby or call out payments.

1J - Additional employment - on 19/01/24 DLUHC paused this request for data pending discussion with the Minister.

4C: Methods of publicising feedback form to residents, for example, newsletters

4C Published on our website https://www.scambs.gov.uk/your-council-and-democracy/four-day-working-week-trial

4D: Provide details of all feedback or complaints received

1. In 5 days time it will be April and I still haven't had my council tax bill - it is helpful to know how much money the council plans to take from bank account

2. I would like to see the trial become full practice across the country and set a precedent for both public and private sector, particularly as AI begins to threaten many jobs - we need to be thinking ahead towards how we can ease out of a society that relies on maximising personal productivity and focus on how humans can use their time more efficiently to achieve greater benefits without being glued to desks.

4E: Provide details of process for handling complaints

4E When completing this form, customers are asked if they wish to be contacted to address their comments. Where that is the case, responses are prepared by the team and agreed by a senior manager. If customers wish to make a formal complaint they are always dealt with through our standard complaints process.
